Contract/Department		Revision
Location		

## Job purpose

Describe the overall purpose of the job in two or three sentences.

To ensure that the delivery of electrical aspects are delivered in an effective, efficient and professional manner to the complete satisfaction of all of our direct and indirect clients.

## Duties/responsibilities/accountabilities/deliverables

List the main aspects of the job, with an emphasis on duties and responsibilities for junior roles, and accountabilities and deliverables for more senior roles.

- Able to demonstrate a proven track record with (post apprenticeship) experience of planned maintenance in a highly regulated environment.
- Isolates defective equipment from power supply, checks visually for faults, tests mechanical parts for faults, isolates the problem areas and take corrective action to repair the problem.
- Conducts preventative maintenance on machines and equipment by checking for smooth operation of the same and replacing worn and defective parts.
- The installation of electrical systems and associated equipment followed up with the appropriate certification.
- Assistance in the preparation of estimates / quotations as required.
- Taking an active part in the on call system, which may require the applicant to become an authorised person (Electrical, Confined Space or Pressure Systems).
- Conform to safety rules and apply good engineering and safety practices.
- Multi-skilled background with a good understanding of steam generation and HVAC systems. A good understanding of High Voltage systems would also be an advantage.
- Must be willing to undertake company standard internal training workshops and work to GMP, (good manufacturing practice).
- The responsibility for allocated work orders from receipt to completion.
- Provision of information on progress of allocated work orders.
- Adherence to all current company procedures.
- Adherence to the Quality Management System applied to all M&E systems.
- Developing of relationships with all clients and potential new customers and work within a site team of field and office based staff.
- Ensuring continuous improvement and drive for value for money.
- Willing to work in secure and sensitive environment on an exclusively manned site.
